Sunnambu Kolathur, Chennai 600 117, India. Phone: +91-44-3923 2323; Fax: +91-44-3923 2324

## About WABAG

WABAG represents a confluence of tradition and modernity, inspired by a vision to serve customers and the wider community of stakeholders.

Our plants facilitate waste water disposal and secure access to clean drinking water for a growing number of people from Europe, Africa and Asia.

Proposals are invited on Thematic Areas of Water & Sanitation, Skill Development, Environment and Improvement of lives and livelihoods of poor under WABAG-CSR Program for the year 2016-17 within the territory of India:

Date of Issue : 1<sup>st</sup> February 2016

Closing Date : 29<sup>th</sup> February 2016

## About WABAG's CSR Initiatives:

WABAG is a leading Indian MNC engaged in the business of providing EPC and O&M solutions to Industries and municipalities in water and waste water management, desalination and recycling. Even before CSR became a legal mandate last year, WABAG has been implementing CSR projects right from 2001 in a small way and rose to the special occasions such as earthquake and tsunami. For instance, WABAG built two drinking water treatment plants in Kutchh Region during earthquake; built drinking water treatment plant at MGR Thittu, Cuddalore District, Tamil Nadu post Tsunami and provided Mobile Health Clinic in coastal regions of Kerala.

- We have recently implemented Water Augmentation Project at Mailam Block, Villupuram District, Tamil Nadu in association with MS Swaminathan Research Foundation to benefit the marginal farmers.
- We have also tied up with Care Earth Trust for Capacity Building for Wetlands Management;
- We provided Rain Water Harvesting facility at Kanchi Kamakoti Child Trust Hospital, Chennai.
- We are building a Sewage Treatment Plant at The Cancer Institute, Adyar.

## Objectives for inviting proposals:

- To identify and develop CSR programs in line with our thrust areas;
- To have special focus on livelihoods, potable water, sanitation and environment-friendly development;
- All initiatives should be sustainable and scalable.

## The water expert
